10 th Grade	Chanakya School, Hyderabad, Telangana	2018 – 2020
<ul style="list-style-type: none">CGPA: 9.8/10		

EXPERIENCE

- Delivered user-centered UI/UX solutions for clients through contract engagements.

SKILLS

- Programming Languages: Java, Python, C
- Frontend: HTML, CSS, Bootstrap, JavaScript
- Backend: PHP, MySQL, Firebase
- App Development: Flutter
- Skills: Artificial Intelligence / Machine Learning
- Designing: UI/UX, Figma

PROJECTS

- WhatsApp Automation Using Python**
 - **Technology**: Python, Tkinter, pywhatkit
 - This project automates sending WhatsApp messages using Python and Tkinter, a Python library for creating graphical user interfaces (GUIs). It addresses the gap in existing automation scripts that require execution through a terminal or code editor.
 - Key features
 - ✓ Simple GUI
 - ✓ Automated Messaging
 - ✓ Improved Accessibility
 - Link: [Click here to view the project](#)
- Personal Portfolio**
 - **Technology**: HTML, CSS, JavaScript
 - This responsive personal portfolio website showcases my skills and experience in a visually engaging and interactive manner.
 - Key features
 - ✓ Personalized UI Design
 - ✓ Responsive Design
 - ✓ Custom Animated Cursor
 - ✓ Modern Design Principles

- New Age Ott**
 - **Technology**: UI/UX, Figma
 - This project involved designing a user interface (UI) for a new-age OTT mobile application using Figma. The goal was to create a modern, intuitive, and user-friendly interface that caters to the needs of today's OTT viewers.
 - Key features
 - ✓ Modern and intuitive layout
 - ✓ Easy navigation and search functionality
 - ✓ User profiles and watchlists

- ✓ Personalized content recommendations
